6 WORDS THAT BEST DESCRIBE ASIAN WOMEN

Posted on April 30, 2015 by Alex Vidal

There are many wonderful words that describe **Asian women**. They are very smart, have great work ethic, they're ambitious and so on. Among these we have picked out six that we feel describe Asian women the best. They are as follows:

1. Family-oriented

This is a very important point. Asian women are very family oriented. You've probably heard that they give up their careers once it's time to settle down and create a family. It is true. They love to take care of their husband and children. These ladies are raised to put family first.

2. Approachable

The word "approachable" describes Asian ladies very well. They are even more easy to approach when you happen to be a foreigner. Being respectful and polite is a huge part of the Asian culture. So when you get into online dating you'll soon notice how smoothly the conversing with Asian women goes. You don't have to break your neck to impress them or come up with exciting things to talk about. The whole communication process with them is comfortable.

3. Traditional

Another good word to describe them is "traditional". Asian ladies are brought up in a rather conservative way and the women will carry this tradition with them. This is very characteristic of them and it doesn't matter at all how much another culture influences them. They will stay true to their values and beliefs.

4. Industrious

It sounds kind of patriarchal but it's true – Asian women love to take care of the home. It is how they were raised and it comes naturally to them. Their mothers did this before them and their grandmothers before their mothers. You get the picture. Even in the modern times some parts of the world won't change.

5. Beguiling

You've heard the stereotype – Asian women are gorgeous. It is absolutely true. The exotic, sexy, mysterious look is definitely attractive. Why else are so many guys looking to date Asian women?

6. Feminine

Another key word to describe Asian women. They love to pay very detailed attention to how they look. Asians also have notoriously amazing genes – most women and even most men. The women love to take care of themselves and embrace their femininity.
